Career Objective

AI Engineer with hands-on experience building LLM-powered assistants, RAG pipelines and multi-agent systems using Python, Flask and the Google Gemini API. Backed by an AI Engineer internship and multiple end-to-end AI and full-stack projects. Seeking a full-time AI Engineer / Generative AI Developer role in a product-focused team to build scalable, production-ready AI solutions.

Internship Experience

OpenSpectrum AI Pvt Ltd. **Mar 2026 – Aug 2026**
AI Engineer Intern

***Key Tasks**:*

- Developed and enhanced Farm ERP modules including Tasks, Inventory, Crop and Field, contributing to Role-Based Access Control (RBAC), permission management, API integration, feature development and application testing across core business workflows.
- Designed and developed Luma Assistant as an AI intelligence layer for Farm ERP, enabling natural-language access to ERP data, cross-module business intelligence, permission-aware AI interactions and crop journey tracking using the Google Gemini API.
- Integrated Smart Glasses with Farm ERP to enable AI-powered voice interaction, speech-to-text and multimodal video analysis, supporting agricultural field operations through crop monitoring, disease and pest identification, yield estimation and intelligent field summaries.

Academic Projects

AI Grant Writer Assistant **Dec 2025 – Jan 2026**
Project using Multi Agent AI Implementation

- Built a multi-agent AI system to automate grant research, eligibility checks, and proposal drafting
- Used CrewAI, LLMs, and Flask to generate structured, funder-ready grant reports

Board Meeting Decisions Tracker **Nov 2025 – Dec 2025**
Project using LLM & RAG

- Built an AI system using RAG and Gemini AI to extract decisions from meeting minutes
- Enabled semantic search, question answering, and PDF report generation

Grambazaar – AI-Powered Digital Marketplace for Self-Help Groups (SHGs) **Dec 2025 – Dec 2025**
Project using Full-Stack Development

- Built a digital marketplace with AI branding, demand analytics, and learning support for SHGs
- Integrated AI tools for content generation, pricing, and sales insights

Social Media Engagement Analysis **Dec 2025 – Dec 2025**
Project using EDA & Machine Learning

- Analyzed engagement patterns using Python Exploratory Data Analysis (EDA)
- Built a Random Forest model to predict engagement rate
- Identified key drivers such as content type, platform, timing, and promotion type

Skills

Data Analysis & Visualization
- NumPy
- Pandas
- Matplotlib

Programming
- Python
- SQL

Tools & Soft Skills
- Communication
- Problem-Solving
- Teamwork
- AWS SES
- Git / GitHub

AI Skills
- GenAI
- LLM
- RAG
- Agentic AI
- Prompt Engineering

Certifications

Python for Data Science
IBM

SQL and Relational Databases
IBM

Introduction to Prompt Engineering for Generative AI
LinkedIn

Education

Adani Institute of Digital Technology Management, Gujarat **2025 - Present**
PGDM in AI and Data Science

CGPA: 2.56/4.33

Lok Jagruti Kendra University, Ahmedabad **2022- 2025**
Bachelor of Computer Applications

CGPA: 7.30/10.00

Gangotri School, Gondal **2021- 2022**
12th Board (GSHSEB)

Aggregate Percentage: 86.43

Gangotri School, Gondal **2019- 2020**
10th Board (GSHSEB)

Aggregate Percentage: 81

Personal Details

Date of Birth
1st February 2005

Languages Known:
English, Gujarati, Hindi

Hobbies:
Listening Music
